wills, the simple way.

Will Builder by Do Process is a user-friendly software solution that is revolutionizing the way wills and powers of attorney are prepared within the law office.

Developed by experienced lawyers, Will Builder is much more than a "precedents on disk" program. It visually and intuitively guides you through the will building process. Will Builder, with its proprietary automated expertise, drafts and assembles documentation quickly and easily using the information you provide.

Automated Expertise

Streamline your workflow - Efficiently prepare your wills and powers of attorney with many unique automated expertise features. Will Builder guides you through the process with ease, from entering the appropriate data to viewing the resulting clause. Easily generate a reciprocal will by copying a client's dispositions and allowing Will Builder to manage the required changes to the wording.

Graphic Dispositions

Gain a clear view - The unique Dispositions screen provides you with a graphical representation of the testator's gifts. This visual summary is a clear and professional way to share information with your clients. Simply print and present for their review.

Powerful Parties Database

Boost productivity - Only input data once about each executor, beneficiary, guardian and attorney. Next, identify or appoint an individual in a particular clause by selecting the appropriate name from the list. The cross-reference feature instantly displays every file in which an individual is named. For maximum efficiency, your data can be imported from other Do Process products - The Conveyancer, Fast Company and Estate-a-Base.

Comprehensive File Management

Keeping you up-to-date - Accurately track the status of each document with the powerful file management capability of Will Builder software.

Cost Effective

Save time and costs - In the event of changing laws, simply generate a report of all wills executed before the change, then produce correspondence for all affected clients.

More than Wills

Increase efficiency - In addition to mirror wills, living wills, dual wills, and jurisdiction-specific wills, Will Builder promptly produces related documents such as Intake Sheets, Reporting Letters, Statement of Accounts, Mutual Wills Contracts and more.

Cost Management

Control and allocate costs - Each will record incurs low clientdisbursable fees.

Keep in Touch

A great way to keep in touch with clients by generating a report of all wills executed within a timeframe and easily sending letters to each of those clients suggesting a review of their wills.
